

## Are you tired of the high cost of healthcare? Take control of your money and consider a H.S.A!

Open enrollment is right around the corner. It can feel like a maze of decisions when it comes to choosing a medical plan.

Here are some things to consider:

### DO YOU WANT MORE WEEKLY CASH FLOW?

The High Deductible Health Plan offers much lower premiums, so you only pay for the services you use.

If you are a single on the plan you could pay **as low as .99 per week!**

In addition, the company has increased the employer contribution to your HSA account to \$750 (single) and \$1500 (2-person and family)!

When you pay high weekly premiums and are not using your insurance, it can feel like you are throwing your money out the window!

### HUNGRY FOR MORE INFO?

In most cases, you save money by enrolling in the HDHP! The key is planning and saving for your expenses. Click on the videos below to learn more!
